2017 DODGE CHARGER

DOMESTIC. NOT DOMESTICATED.

This is what happens when you have muscle-car heritage coursing through your veins. You get modern-day marvels that are engineered with more passion, precision and performance than ever before. This is the Brand that boasts both style and power, and never makes you choose between the two. With more than 100 years under their belt, each vehicle in the 2017 Dodge lineup pays homage to its iconic bloodline with award-winning features and superior craftsmanship. The snarling engines and sleek exteriors of each vehicle beg to be taken out on the open road. The Dodge name continues to live on with the same determination that the Dodge brothers had when first creating the Brand. It's time to put the pedal to the metal and live fast. HERE'S TO THE NEXT GENERATION OF INNOVATION.

DOMESTIC. NOT DOMESTICATED.

DODGE

2017 DODGE CHARGER

This is a car with more than 50 years of credentials behind its name. A car that helped usher in the first era of muscle and is now fueling the segment's resurgence with a broader definition of performance. It's no longer just about feasting on burnt rubber, it's about equal parts attitude, personality and horsepower. It's about performance on the streets and at the pump. It's about having the audacity to give a family-friendly sedan a ludicrous 707 horsepower. This is Dodge Charger, a car with skin in the game for a half-century. A performance car no longer satisfied with merely distancing itself from the pack, it's aiming to lap the pack.

DODGE FEVER -1968

Charger's amped-up attitude is so fierce, it's impossible to ignore. The first glance sends chills. The second begs you to run your hand along its low, lean profile and scalloped bodyside. Its imposing grille leaves no question where this retro-modern muscle comes from. Front to rear, Charger commands authority with projector headlamps and LED lighting. Even the most discerning eyes take note.

///// Charger Daytona shown in Yellow Jacket.

HIT UP AN OLD FLAME //////

The heritage-inspired Charger R/T Scat Pack proudly wears the Scat Pack Bee on its Gloss Black grille. Built for performance, a large inlet and scoop transfers gulps of fresh air beneath the hood to efficiently cool the engine compartment. The 392 HEMI® fender badges let onlookers know exactly what's under the hood. Available High Intensity Discharge (HID) headlamps with LED daytime running lamps and bulked-up 20x9-inch wheels amp up the track-infused design. Its rear heat extractors and 1-piece Satin Black performance spoiler bear witness that this vehicle means business.

///// Charger R/T Scat Pack shown in Pitch Black.

///// Charger R/T shown in Black/Pearl Nappa leather with Sepia accent stitching and perforated inserts.

THIS MUSCLE
HAS A SOFT SIDE

Don't just love us for our body. Want us for our technology. Appreciate us for our soft spaces and for our ability to accommodate your friends.

Charger's driver-focused interior is stocked with race-inspired details, bold colors and retro-cued soft-touch surfaces. A genuine, 1-piece-stamped aluminum instrument panel bezel adds the finishing touch on an interior that is dedicated to the details.

Take control with the thick-rim three-spoke Sport steering wheel. Available paddle shifters with rev-matching capability bring track-inspired performance to the everyday drive.

Seating for five ranges from premium cloth to Nappa leather trim and Alcantara® suede to premium Laguna leather. Standard Dual-Zone Temperature Control and available heated/ventilated front seats, heated rear seats and full-circumference heated steering wheel bring year-round comfort, in any climate.

DRIVEN BY TECHNOLOGY

While the performance technology helps pull extraordinary numbers, it's the driver-centered tech that adds more envy to the interior. It starts with a seven-inch reconfigurable digital gauge cluster. From here, you get real-time information and vehicle status updates in full color, as well as available turn-by-turn navigation information and visual safety system notifications.

Keep tabs on performance numbers including 0 – 60 time, reaction time and lap timer with available Dodge Performance Pages. The pages also include configurable Drive Modes that allow you to make performance adjustments to the engine, transmission, steering response and traction control.

The center console shifter gives Charger a distinctive level of sophistication. The electronic shifter with AutoStick mimics the operation of a traditional linkage shifter, while allowing for smoother and more efficient shifting.

THRILL RIDES

THE LINE STARTS HERE

///// **3.6L DOHC PENTASTAR® VARIABLE VALVE TIMING (VVT) 24V V6 WITH MAX 300 HP AND UP TO 30 MPG HWY.*** This powerplant boasts 292 horsepower and kicks the ponies up to 300 when paired with the available Rallye Group that includes Sport Mode, cold-air induction, sport-tuned exhaust and die-cast paddle shifters. Couple that with the standard TorqueFlite® eight-speed for an impressive combination of 0 – 60 in the mid six-second range and up to 30 mpg highway.*

///// **5.7L HEMI® VVT V8 WITH 370 HP, 395 LB-FT OF TORQUE AND UP TO 25 MPG HWY.†** The legendary engine releases a big dose of horsepower, impressive torque and a 0 – 60 mph acceleration in the low five-second range. The standard TorqueFlite eight-speed automatic transmission with AutoStick and Fuel Saver Technology helps Charger deliver a whole new level of performance and efficiency. It's technology like this that supplies Charger with an equal dose of muscle and responsibility.

///// **392 HEMI V8, 485 HP, 475 LB-FT OF TORQUE AND UP TO 25 MPG HWY.‡** Standard on Charger R/T Scat Pack, Daytona 392 and SRT® 392, the intensity of this HEMI V8 churns out a potent 485 horsepower and 475 lb-ft of torque across a wide rpm range. Charger SRT accelerates from 0 – 60 mph in the high four-second range and covers a quarter-mile in the high 12-second range. The robust TorqueFlite eight-speed automatic transmission features rev-matching on downshifts.

///// **6.2L SRT HELLCAT HEMI V8 WITH 707 HP AND 650 LB-FT OF TORQUE.** This is the baddest of the bunch. It assaults the asphalt with 707 horsepower, an unreal 650 lb-ft of torque and 0 –60 mph in the mid three-second range. Paired to the TorqueFlite eight-speed, it delivers impressive street driving and maximum performance with 160-millisecond shifts and rev-matching on downshifts. The SRT TorqueFlite eight-speed features enhancements over the standard version to be able to withstand the groundbreaking power, including additional pinion gears and five more clutch pack discs.

*Based on 2017 FCA group testing. EPA estimates not yet available. Actual mileage may vary. †2016 EPA estimated 16 mpg city/25 mpg hwy. Actual mileage may vary. ‡2016 EPA estimated 15 mpg city/25 mpg hwy. Actual mileage may vary.

DODGE REBELLION -1966

FEEL IT COMING

CHARGER R/T SCAT PACK ////// Loaded with a legendary 392 HEMI® V8, this powerhouse unleashes 485 horsepower and 475 lb-ft of torque. Four-piston Brembo® brakes, 3-mode Electronic Stability Control (ESC)[4] with Full-Off Mode. High-performance suspension with Bilstein® shocks, 20x9-inch wheels and available Three-Season Performance tires work together to bring top-shelf control. The interior merges retro styling with modern technology. Race-inspired seats feature the famed Scat Pack logo embroidered on either standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts. Standard on the R/T Scat Pack model, Dodge Performance Pages feature everything from Launch Control to a G-force meter to drag-race timers. This real-time data can also be displayed on either the 8.4-inch Uconnect® touchscreen or the standard seven-inch reconfigurable digital display nestled between the gauges. For an even greater degree of personalization, the Charger R/T Scat Pack customizable settings can be accessed through the standard Uconnect touchscreen that gives the driver the ability to adjust steering feel, transmission shift points and throttle response.

///// Charger R/T Scat Pack shown in Granite.

DOMESTIC. NOT DOMESTICATED.

707

HORSEPOWER

In its own right, Dodge Charger makes a bold statement. Tag on three little letters to the nameplate and enthusiasts know there's an extra punch to its performance. Add an additional surname to the bundle and this vehicle's credentials are amplified even louder. Charger SRT® Hellcat … the name says it all. With 707 horsepower, 650 lb-ft of torque, an 11.0 second NHRA-certified quarter-mile elapsed time on street tires, and 0 – 100 – 0 mph in under 13 seconds … the numbers back it up.

///// Charger SRT Hellcat shown in White Knuckle.

//// CUT THE COMPETITION OFF AT THE KNEES

Program your driving experience and keep track of performance data via customizable SRT® Performance Pages. Everything from horsepower to G-force meter to drag-race timers to downloadable apps is right at your fingertips. This real-time data can be displayed on the seven-inch reconfigurable digital gauge cluster or on the 8.4-inch Uconnect® touchscreen.

At delivery, SRT Hellcat owners are handed both a Red and Black key fob. The Red unlocks the potential max horsepower while the Black enables more conservative performance.

Tip to tail, inside and out, Dodge Charger SRT Hellcat reigns supreme. Whether you're checking out its menacing sheet metal or its track-inspired interior, it's clear this machine exudes unrelenting power.

Extensive wind tunnel and road testing helped create an engine cooling package that lets Charger SRT Hellcat challenge other sedans without fear of degradation. The sculpted aluminum hood showcases a colossal air intake and dual heat extractors that vacate the heat that 707 horsepower can make.

The Bilstein® three-mode Adaptive Damping Suspension on Charger SRT Hellcat models provides selectable driving dynamics settings that adjust shocks and transmission shifts to suit any drive — Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest, max handling).

These Drive Modes tailor the driving experience by controlling horsepower, transmission shift speeds, paddle shifters, traction control and suspension settings. Drive Modes are pre-configured for Sport, Track and Default settings, while the Custom Mode allows the driver to configure their own unique driving experience.

SAFETY & SECURITY FEATURES

PARKSENSE® REAR PARK ASSIST[6] //// When the vehicle is in Reverse, the system can sense objects at low speeds. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available on Challenger and Charger.

RAIN BRAKE SUPPORT //// When the windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard on Challenger and Charger.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST[7] //// Alerts and assists the driver; leverages electric power steering (EPS) to deliver subtle steering-wheel input when the system detects the need for course correction. Available on Charger.

BLIND SPOT MONITORING (BSM)[8] WITH REAR CROSS-PATH DETECTION[6] //// Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,[6] which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of tight parking spots. Available on Challenger and Charger.

ADAPTIVE CRUISE CONTROL (ACC)[9] //// Helps maintain distance from the vehicle ahead. Available on Challenger. Under certain traffic conditions, Charger models with this system can bring the vehicle to a full stop without driver intervention.

FULL-SPEED FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING[10] //// Radar and camera technology combine to help determine if frontal impact appears imminent; if so, the system prefills the brakes, then transmits audible and visual warnings for the driver to intervene. No driver response triggers brief brake application as a tactile alert; if the driver remains unresponsive and a frontal collision risk remains, brakes are applied to slow the vehicle before impact. The system can bring the vehicle to a full stop if speed is reduced below 20 mph. Available on Charger. Available with Challenger models, FCW[10] system transmits audible and visual warnings. Warning sensitivity can be adjusted to driver preference.

PARKVIEW® REAR BACK-UP CAMERA[6] //// This system displays an accurate visual reference of what is behind your vehicle when it's in Reverse. Available on Challenger and Charger.

ELECTRONIC STABILITY CONTROL (ESC)[4] //// This system is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC[4] senses when a vehicle is starting to spin (oversteer) or plow (understeer), and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels. Standard on Challenger and Charger.

READY ALERT BRAKING //// The system anticipates situations when the driver may initiate an emergency brake stop and uses the ESC[4] pump to precharge the brake system in order to decrease the time required for full brake application. Standard on Challenger and Charger.

RAIN-SENSING WINDSHIELD WIPERS //// System sensors automatically detect moisture on the windshield and activate the wipers. Available on Challenger and Charger.

///// Dodge Charger SXT shown with Authentic Dodge Accessories by Mopar®: Matte Black Bodyside Graphic and 20-Inch Black Chrome Wheels.

///// ALWAYS AT YOUR SERVICE. The story of Mopar began nearly 80 years ago with a focus on motor parts and the introduction of a simple can of antifreeze. Through the decades, we have grown into so much more. Today, as the official service, parts and customer care provider for FCA US LLC Brand vehicles, we walk alongside you as your partner in the vehicle ownership experience. That's why we offer authentic parts and accessories designed by the same engineers that created your vehicle to make it truly *yours*. It's why our team is comprised of expert dealer technicians who know your make and model best, armed with leading-edge diagnostic technology no one else can match. And it's why we've created unique services like Mopar Owner Connect, Express Lane Service and Mopar Vehicle Protection® plans to offer convenience and peace of mind. In short, we are not only here to service cars, trucks, minivans and SUVs — we are here to service people's lives. It's this commitment that fuels who we are. And it's our promise to you that Mopar will always be at your service. See your dealer for the full line of Authentic Accessories available for your Dodge vehicle, or visit **mopar.com**

5 YEAR / 60,000 MILE[13]
POWERTRAIN LIMITED WARRANTY

---

[1] Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. [2] Apple CarPlay and Android Auto require a compatible mobile device connected via USB cable to the Uconnect system. Data plan rates may apply. Visit UconnectPhone.com for system and device compatibility. [3] Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Visit UconnectPhone.com for system and device compatibility. [4] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [5] SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. **If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and get more information at www.siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. [6] Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. [7] LDW is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. [8] Always check visually for vehicles prior to changing lanes. [9] ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [10] FCW system is solely an alert system for the front of the vehicle which does not take any actions to change the vehicle dynamics to avoid a collision and is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [11] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [12] The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. [13] Transferable. See dealer for complete details and a copy of the 5-Year/60,000-Mile Powertrain Limited Warranty.
