

WHY GO

GALPIN

GALPIN FORD, 1946

"If you strive to put God first, family second, business third and everything else – including yourself – somewhat after those three, you set a tremendous example for your

family, your employees and your customers. You will then be able to help your fellow man; you will become the type of person your employees want to work for; and you will become the type of person customers want to buy from."

Why is innovation so important to us? Well, it's not so much the innovation itself, but how it comes about. You see, our innovative spirit is fueled by our desire to give you, our highly valued customers, the very best buying and driving experience you can possibly have. And many times those efforts result in something that has never been done before!

It is our commitment to you, our customers, which is the impetus for all the creativity, hard work, and collective efforts which bring those unique ideas to fruition.

Our commitment also produces another most valuable asset - and that's trust! We know you can't buy trust. You have to earn it!

People have come to know that they can trust Galpin for the right selection, the right price, the right service and the latest innovations. That's why 90% of our customers are either repeat, referral, or come to us because of our sterling reputation. That's the Power of Trust!

Lou Gil with his Galpin Ford - 1953

"I was just home from the Air Force in December, 1953, starting a new life, buying my first brand new car. It was a black '54 Ford sedan. I was one of Bert's first customers. He was just a young new salesman, and the nicest I ever met. I felt I could trust him. And now, all these decades later, I've just bought a new Taurus... also from Bert!"
