

2020

Passat

Volkswagen

Seriously spacious, fun to drive.

Whether on your daily commute or out and about on the weekend, there's a lot of quality friends and family time to be had in the 2020 Volkswagen Passat. The Passat offers plenty – from touchscreen entertainment and App-Connect* to available Driver Assistance** features. With so much going on inside the Passat, you won't have to look far for good times. Get ready, the fun's about to begin.

*Always pay careful attention to the road, and do not drive while distracted. Not all features available on all operating systems. Standard text and data usage rates apply. App-Connect features require compatible device, operating system, and mobile apps. See mobile device and app providers for terms and privacy. **Driver Assistance features are not substitutes for attentive driving. See Owner's Manual for further details and important limitations.

A wide-angle photograph of the interior of a Volkswagen Passat. The view is from the passenger side looking towards the driver's seat. The front seats are upholstered in black leather with white stitching. The dashboard and center console are also in black. A man and a woman are visible in the background, smiling and looking out the window. The car is parked on a balcony or pier with a railing, and the ocean is visible in the background.

Live midsize to the fullest.

The Passat has eye-catching lines and refined styling, with comfortable front seats and a spacious amount of legroom in the back – so whether you're toting your kids around or your friends are along for the ride, it looks as though you can please everyone. And have a really good time doing it.

LED projector headlights with LED Daytime Running Lights

Help illuminate your drive and highlight your sense of style with these attractive LED projector headlights with LED Daytime Running Lights.

LED taillights

LED taillights can help you get seen and have been styled with precise contours that perfectly flow with the design lines on the Passat.

FEATURES

Automatic headlights
 60/40-split folding rear seat
 17" 10-spoke alloy wheels
 Multi-function steering wheel

AVAILABLE FEATURES

Power tilting/sliding sunroof
 19" 5-spoke two-toned machined alloy wheels
 Remote start*
 Climatronic® dual-zone automatic climate control
 Frameless, auto-dimming rearview mirror

R-Line Design

The available Passat R-Line steps up the bold and sporty attitude for even the most sophisticated drivers. With a sporty front end and rear bumper, 19" wheels, and performance design cues, you may notice an increase in double takes.

Keyless access with push-button start*

Available keyless access lets you lock, unlock, start, and drive your car without ever having to take your keys out of your pocket. Press the brake and push the start button, and your engine's running and ready for action.

Hands-free Easy Open trunk

Hands full? With your keys in your pocket, just kick your foot under the rear bumper and the available hands-free Easy Open trunk unlocks and opens.

Rear legroom

Providing more than three feet of rear legroom, friends of all sizes can stretch out and enjoy.

Turbocharged engine

As part of the turbo technology in the Passat, cooled air is forced directly into the TSI® engine, helping to give you impressive performance, horsepower, and torque.

Leather-wrapped, multi-function steering wheel with paddle shifters

With comfort and technology right at your fingertips, you won't want to let go. Available track-inspired paddle shifters also give you quick-shifting capability at your fingertips, so you don't have to.

6-speed automatic transmission with Sport mode

The automatic 6-speed transmission cruises you from 0 to 60 and back down so smoothly*, you'll feel like a pro. And if that isn't sporty enough for you, switch into Sport mode for a more active feel advancing through the gears.

Fun to drive, fun to ride.

The Passat has what you're looking for while you're out and about — excitement, agility, and a powerful turbocharged engine. That's 2.0 liters of performance plus the tools to match with available sporty paddle shifters at your fingertips. You'll look the part too, with available R-Line details like a unique front bumper, chrome door trim, and steel pedal caps.

A photograph of the interior of a Volkswagen Passat, viewed from the driver's perspective. The steering wheel features the VW logo and 'PASSAT' branding. The instrument cluster shows a digital display with '0' and 'mi'. The center console has a large touchscreen displaying Apple CarPlay with icons for Phone, Music, Maps, Messages, Podcasts, and Audiobook. Below the screen are three circular climate controls and a gear shifter. The background shows a blurred city street at night with illuminated buildings.

Designed to connect.

Innovation always comes along for the ride. Enjoy features like App-Connect,* which lets you access your compatible smartphone's music, maps, messaging, and more on your dash. Get directions to your next destination from the available touchscreen navigation. Fill the cabin with sound from the available Fender® Premium Audio System. You'll see how the Passat really does have your interests in mind.

*Always pay careful attention to the road, and do not drive while distracted. Not all features available on all operating systems. Standard text and data usage rates apply. App-Connect features require compatible device, operating system, and mobile apps. See mobile device and app providers for terms and privacy.

FEATURES

1 front USB data port

Bluetooth® technology with audio streaming for compatible devices

SiriusXM® All Access with 3-month trial subscription*

AVAILABLE FEATURES

2 rear USB charging ports

Fender® Premium Audio System

6.3" touchscreen sound system

This feature lets you experience your music through more than one of the senses. With voice control and an intuitive proximity sensor behind a clear glass display, you'll see, feel, and hear the difference.

6.3" touchscreen navigation system

Navigation gets even more savvy with a sleek 6.3" touchscreen display with a 3-month trial subscription to SiriusXM® Traffic and SiriusXM Travel Link®.* It can also pair with multiple compatible phones via Bluetooth technology, and it offers App-Connect**. It's modern technology made.

App-Connect**

App-Connect allows you to connect your compatible smartphone with Apple CarPlay™, Android Auto™, or MirrorLink® to access select apps on the touchscreen display. From streaming music to mobile apps, it can be accessed on the touchscreen.

*Always pay careful attention to the road, and do not drive while distracted. SiriusXM audio and data services each require a subscription sold separately, or as a package, by Sirius XM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. Please see the SiriusXM Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees, content and features are subject to change. ©2020 Sirius XM Radio Inc. More help behind the scenes.

Once you discover the Driver Assistance features available in the Passat, you'll quickly enjoy advanced peace of mind. Like Blind Spot Monitor — or Forward Collision Warning and Autonomous Emergency Braking (Front Assist), which helps to stop your vehicle when an emergency is detected.* Just two of the ways the Passat keeps the good times rolling, by helping to keep you and your family on the right side of happy.

*Driver Assistance features are not substitutes for attentive driving. See Owner's Manual for further details and important limitations.

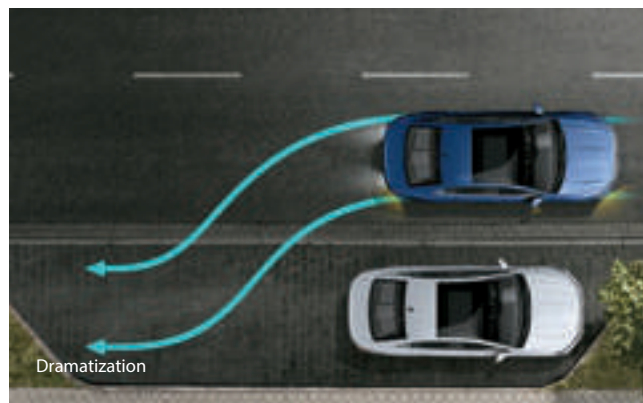

Lane Keeping System (Lane Assist)*

When moving above 37 mph, the available Lane Keeping System (Lane Assist) can sense if you start to drift into another lane without using the turn signal. Within the limits of the system, Lane Assist can help keep you in the current lane when lane markings are detected.

Forward Collision Warning and Autonomous Emergency Braking (Front Assist)*

The Forward Collision Warning (included in Front Assist) system can help monitor traffic and can alert you acoustically and visually to a potential rear-end collision with the vehicle moving ahead. If it senses that a collision is imminent, Autonomous Emergency Braking (included in Front Assist) can support the driver with increased brake pressure or, if the driver does not react at all, it can apply the brakes automatically. Pedestrian Monitoring (included in Front Assist) feature can warn of pedestrians crossing in front of the vehicle and, under certain circumstances, can brake automatically to help mitigate the outcome of a collision with a pedestrian if the driver doesn't respond to the warnings.

High Beam Control (Light Assist)*

Available High Beam Control (Light Assist) can help to provide optimum visibility on dark roads by automatically turning on your high beams at speeds above 37 mph. A camera mounted at the base of the rearview mirror turns your high beams on when conditions warrant it. It then turns them off again depending on the position of vehicles driving ahead of you or on-coming vehicles, the vehicle speed and other environmental and traffic conditions.

Adaptive Cruise Control (ACC)*

Available Adaptive Cruise Control (ACC) helps the vehicle maintain a preset speed and distance from the car in front of you. When activated, if the car in front of you speeds up or slows down, the sensors can detect the change and your car follows suit up to the preset speed and/or preset distance.

Park Steering Assistant (Park Assist)*

The available Parking Steering Assistant (Park Assist) can determine if a parking spot is big enough for your Volkswagen. Then it will help steer the vehicle into and out of the space, either parallel or perpendicular. You operate the accelerator, brake, and shifter; it does the rest.

Park Distance Control*

The available Park Distance Control has sensors that can help alert you as you back out of or drive into a parking spot. Audible signals and the optical parking system on the display indicate how much space you have behind and, on some vehicles, in front of the vehicle when parking. The frequency of the signal tone increases as the vehicle draws closer to a detected obstacle. If you get too close, a continuous tone sounds as a warning. The display provides additional information to the driver by showing the position of detected obstacles.

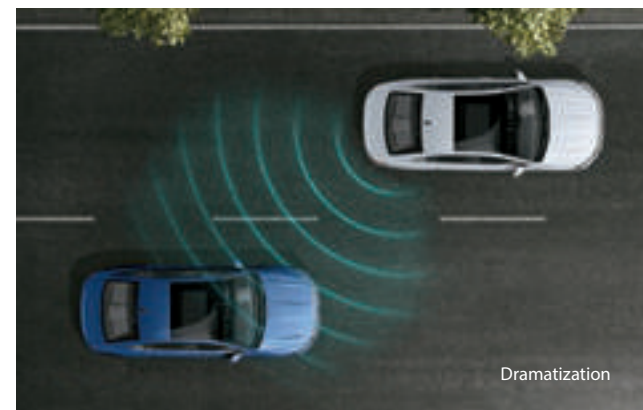

Rear Traffic Alert*

Rear Traffic Alert comes in handy when you're backing up. It has sensors that can alert you to detected vehicles crossing in your path when in reverse and can even help brake the vehicle if needed.

Blind Spot Monitor*

The Blind Spot Monitor is a feature that can sense what you might miss. If you attempt to change lanes, Blind Spot Monitor can help alert you to other cars that may be in your blind spot. The Active Blind Spot Monitor (available when vehicle is equipped with Lane Assist) on select models can also counter-steer within the limits of Lane Assist to help keep you in your lane if you attempt to change lanes when a vehicle is in your blind spot.

Helps you stay out of trouble.

Peace of mind comes in different forms on the Passat with its multiple safety features.

Rear View Camera System

Benefit from the view of a wide lens when you want it. It can help you see obstacles when backing up, a feature so helpful you'll wonder how you ever managed without it.

Safety cage

Front and rear crumple zones help absorb crash energy, while a rigid safety cage helps distribute forces away from the driver and passengers.

Automatic Post-Collision Braking System*

Not every collision brings a car to stop. That's why our vehicles include the Automatic Post-Collision Braking System. It can also help slow the vehicle down after a collision, helping reduce the chance of any additional impacts.

Intelligent Crash Response System (ICRS)**

In the event of a collision that deploys the airbags,† the ICRS can turn off the fuel pump, unlock the doors, and activate the hazard lights. It helps react if you might not be able to.

Six stability-enhancing systems

From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which can adjust engine throttle and apply corrective forces to the wheels that need them most, your vehicle is equipped with a total of six stability-enhancing systems.

*The features discussed are designed to help mitigate the effects of certain collisions, and are not a substitute for attentive driving. Please see Owner's Manual for further details and important limitations. **The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners activate. Not all collisions cause airbags to deploy or safety belt pretensioners to activate. †Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. ††

Porsche AG. Volkswagen navigation depends on the signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes to location addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, and other road system changes are beyond the control of Volkswagen of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Periodically, the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. For further information regarding any Volkswagen model, please call 1-800-DRIVE-VW or just look us up at vw.com.
